You are bidding on a custom kit for a 10 man squad of marines for warhammer 40k. I use these for Salamanders Chapter marines, but you can use them for any dragon based chapter or second founding chapter. We don't have any Blood Angels, Dark Angels, Ultra Marines, Space Wolves or Black Templars. Sorry.

These are all provided unpainted.

This kit includes
10 left arm shoulder pads with a dragon or salamander head sculpted on it.
10 Salamander - Dragon specific backpacks, scales and flames are sculpted on the back
1 Power Hammer or Power Claw, your choice

Enough bits to create a whole 10 man squad of Salamander marines and 1 stargeme with a power weapon.

I may also choose to send freebies from my personal casing collection. I only SELL original sculpting, no GW or FW recast.

PLEASE NOTE: I am not a foundry.

My casings do have some flash and moldlines to clean as well as little casting nodules that are easily removed with an excito blade, to remove these myself would drastically cut down on casing and sculpting time. But knowing these are not from a factory (some person left me a negative for having moldlines and flash without even communicating with me about the issue!).

I will need cleaning that requires some modeling experience (how not to slice your hand with a blade, :)).

See the pictures below for detailed photos.
We also can provide custom sculpted rhino armor for Saltamanders. We can be hired on to sculpt any chapter icons if we are provided sketches. Please realize these are all original sculptures and GW owns any icons or trademarks they have created.

Shipping will be by US Postal Service.

Thanks and hope you enjoy.

Description

Item Specifics - Item Condition
Condition: New

Name: Warhammer 40k
Chapter: Salamanders

This listing is composed of extra or addictive armor for the rhino. It also has a custom sculpted front hatches, side door and back hatch for the Salamanders with icons on each piece. These can easily be used for any Space Marine chapter or other, I personally believe these are superior to any other items as my plastic is much better and these are sculpted by me, of course!

Salamanders are so under-represented in the warhammer 40000 40k world I had to take matters into my own hands and sculpt parts for my space marines. These are perfect for people who like to make a distinct founding chapter such as the black dragons or who play salamanders OR who have their own DIY chapter with a dragon in their iconography.

The parts fit right on where the regular rhino parts would fit, easy to do!

I am also available to make custom shoulder pads and other rhino parts for other chapters.

Kit is composed of 12 parts -2 rear hatch doors, 1 side door, 1 front panel, and 8 extra armor pieces that are sculpted like dragon scales.

I may also choose to send freebies from my personal casting collection. I only SELL original sculpting. no GW or FW recast.

PLEASE NOTE: I am not a foundry. My castings do have some flash and moldlines to clean, but knowing these are not from a factory someone left me a negative for having mold

Description:

This is a custom sculpted drop pod. This is hand sculpted and completely original. It can be used in any science fiction game. I use them for my 40K Space Marine army. The kit is composed of 5 wings, 5 panels, 1 base, 1 top, and 1 jet nozzle. This model comes unassembled and unpainted. It is to scale for most 25 mm table top games. The one shown is a Salamanders Chapter pod, but you can use these for Blood Angels, Dark Angels, Space Wolves, Ultra Marines, Black Templars and any other chapter of your choosing or creation.

I can also have custom parts (可以在 any chapter done, even Do It Yourself chapters).

This auction is for a single pod kit.

This pod for sale is composed of 5 identical wings, 5 identical side panels, 1 bottom base, 1 top section and 1 jet nozzle. So 13 parts in total.

This is not a Forge World Drop Pod or a recast of one that would be copyright infringement. This is an original sculpt.

Feel free to email me with any questions at dlilgoop@verizon.net

I may include Freebies as a thank you for your purchase, these are not sold to you and are just that, free. I dont make money off them, they may be misprint that i cant sell etc.

Please note that i own or run a professional foundry, there are mold lines and flash you need to remove for display purchases. This is an UNFINISHED model. Small bubbles and defects are normal in resin casting and you are bidding with the knowledge your item may contain small imperfections that are easily fixed with modeling putty. There may be defects on a part of the model that is not on display (bottom of pod that the model sits of and is not shown when used in game).

Thanks for your bidding!

Hello guys,

Warlag! Lots of awesome photos!

Myself and a friend have started a small enterprise. He sculpts shoulder pads for chapters that you never see, making shoulder pads for (as well as many custom designs) and we have them cast in pewter.

We have done our research and spoken to lawyers and stayed away from direct copies of GW Intellectual Property. That is why you won't see GW Salamander Icons or direct reproductions on our work. So we are legit and plan to stay that way!

These are pewter and the rhino parts are resin. These are not identical to any published icons out there, a bit generic, but familiar that you should be able to use them with little problem.

Prices:
- $1.00 for any pads (if you buy 50 or more of a type you get them for $0.85 each)
- $1.50 for rhino kits
- $1.50 for the salamander hammer or powerclaw.

We have a Salamander head (or dragon head), its very 3D and sells well!

Smooth Scale Mosaic Salamander Pads:

We also have a rhino armor and door kit:

Next up is our newer snake or Iron Snake shoulder pad line, we've taken the greek ideas and added chains on the edges of the pads:

Last but not least is our Chalice pad that can be used as soul drinkers or even Blood Angels second founding chapter:

We can do custom designs, but there is a cost for the time to sculpt and mold creation. Anyone serious about custom chapter pads, you can expect to spend about $130 for the sculpting, the mold making and then you have to pay for the pads themselves.

If this becomes a business, I am already talking with Lin about sponsoring (we don't even have a website yet though). Btown is the best...

Please feel free to email me with any questions and order requests: dropods@verizon.net

Thanks!

Just posting to say that the pictures don't do justice to the quality and awesomeness of these. Nick is a great guy as well and terrific to deal with.

Is each shoulderpad a single piece of plastic/resin/whatever? I'm seriously thinking of picking up some of these for a project.

Each pad is a single pewter piece, there is very little flash or mold lines. I would almost say you can use these straight from us without any filing or other modifications, just paint up.

We can just about sculpt anything that isn't done by another company already. Check my Bartertown references.
